

PureAudio

HUI-01

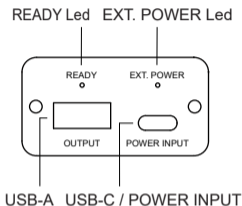

High-Speed USB Isolator
User's Manual V 1.0

Quick Start Guide

1. Input Panel View

2. Output Panel View

Input Side :

Input Select : Switch between using IN1 or IN2 input.

IN1 : Please use TYPE-C cable to connect to the device, this input supports OTG mode, such as smart phone or iPad Air 5.

IN2 : Please use TYPE-B cable to connect to the device, such as computer or NAS device.

Output Side :

READY Led : Lights up to indicate that the input is connected to a computer or an available device, please do not plug in a charger or other power supply devices to IN1 and IN2.

EXT. POWER Led : Lights up to indicate that the power input terminal is connected to an external power source.

USB-A : This is the output port, please use TYPE-A cable to connect to the device, such as a D/A converters or other USB downstream device.

Power Input : This is the input port, please use a TYPE-C cable to connect to a 5 volt power supply device, such as a 5 volt power bank, Do not plug in a power supply with more than 5 volts to avoid equipment damage.

Note : Under normal use, no external 5 volt power supply is required, When using Apple devices that require more extra power, Then plug in the external power supply.

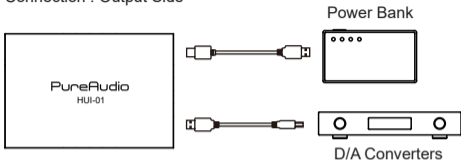

Connection : Input Side

Smart Phone or iPad

Computer or NAS

Connection : Output Side
